

Northern Kentucky Right to Life PAC

May 17, 2026

Representatives Banta and Moser have not been endorsed by Northern Kentucky Right to Life (NKRTL).

Representatives Moser and Banta both voted against the Kentucky bill on transgenderism the “Do No Harm Act” in the 2023 legislative session, and then worked to sustain Gov. Beshear’s veto of the bill. The vast majority of Republicans overruled his veto! In their recent answers to NKRTL’s questionnaire for this May 19th primary both politicians answered with pro-life answers, even to question #10 that specially refers to “Do No Harm Act”, but they both voted the exact opposite in 2023!

Both politicians – Banta and Moser – sought NKRTL’s endorsement not only in this year’s election but in years past. Now that neither one got NKRTL’s endorsement, they are lying about what NKRTL stands for, and why they don’t need or want the NKRTL endorsement.

NKRTL has never called for the imprisonment of any woman who has had an abortion. In fact, NKRTL has featured at its events various women who have had abortions and the trauma they went through. They still relive the pain in their life over this life-ending decision.

Rep. Moser says that NKRTL wants to take away contraceptives and she won’t have anything to do with an organization like that! First of all, NKRTL does not advocate for taking away contraceptives, but rather the government not using our tax dollars to fund abortifacient drugs which impede the implantation of the newly conceived child in the mother’s uterus. Secondly, Rep. Moser was singing a different tune last September when she wanted to take an ad out in NKRTL’s annual Celebration of Life program. NKRTL turned down her money, and would not allow her to take an ad as NKRTL will not promote any politician it cannot endorse.
